Main EOSC tasks for the future

Task 1: Deploying and operating the EOSC EU node
(Core, Exchange, FAIR Data Federation)

Task 2: Maintaining and updating the EOSC EU node and expanding the EOSC federation
(with elements that are close to the 'market')

External trusted legal entity

EC

Task 3: Enabling a 'web of FAIR data and services' for science

Task 4: Develop, prototype and test new elements supporting the evolution of the EOSC Core and Exchange and the tools enabling the federation
(elements that can be made ready for the 'market')

Task 5: Enabling Open Science policies and the uptake of Open Science practices

Federation of Nodes

The node concept is where governance, policy and architecture meet

Community has been consulted via 3 events and we will prepare a position document as input for the first implementation of the rules of participation for the EOSC federation
