

# Harmonised PID practices for protected data

FAIR-IMPACT Workshop  
EOSC Symposium 2023  
21 September, 2023

Josefine Nordling, CSC - IT Center for Science  
WP lead on Persistent Identifiers

<b>Time</b>	<b>Topic</b>	<b>Presenter</b>
17:05 - 17:10	Welcoming words	Josefine Nordling, CSC (PID WP Lead)
17:10 - 17:20	Introduction to the FAIR-IMPACT project and the work on PIDs	Josefine Nordling, CSC
17:20 - 17:30	Identifiers.org protected data feature	Renato Caminha Juaçaba Neto, EMBL-EBI (PID Use Case)
17:30 - 17:40	Sensitive Data Handling in the Social Sciences	Hervé L'Hours, CESSDA UKDS (PID Use Case)
17:40 - 18:00	Discussion using Mentimeter	
18:00 - 18:05	Closing remarks	Josefine Nordling, CSC

# FAIR-IMPACT

## A bird's eye view

Call HORIZON-INFRA-  
2021-EOSC-01-05

Enabling discovery and  
interoperability of  
federated research  
objects across scientific  
communities

**Expanding FAIR  
solutions in Europe**

Partly following up on  
FAIRsFAIR

EU funded project

Coordination and  
Support Action

10 million euro

36 months, starting 1  
June 2022

28 partners and  
affiliate entities

From 10 EU  
member states:  
NL, FI, FR, DK, IT,  
DE, ES, NO, BE,  
RO

and the UK

# FAIR-IMPACT overall objective

## WHAT:

to realise a FAIR EOSC by **supporting the implementation** of FAIR-enabling practices across scientific communities and research outputs at a European, national, and institutional level;

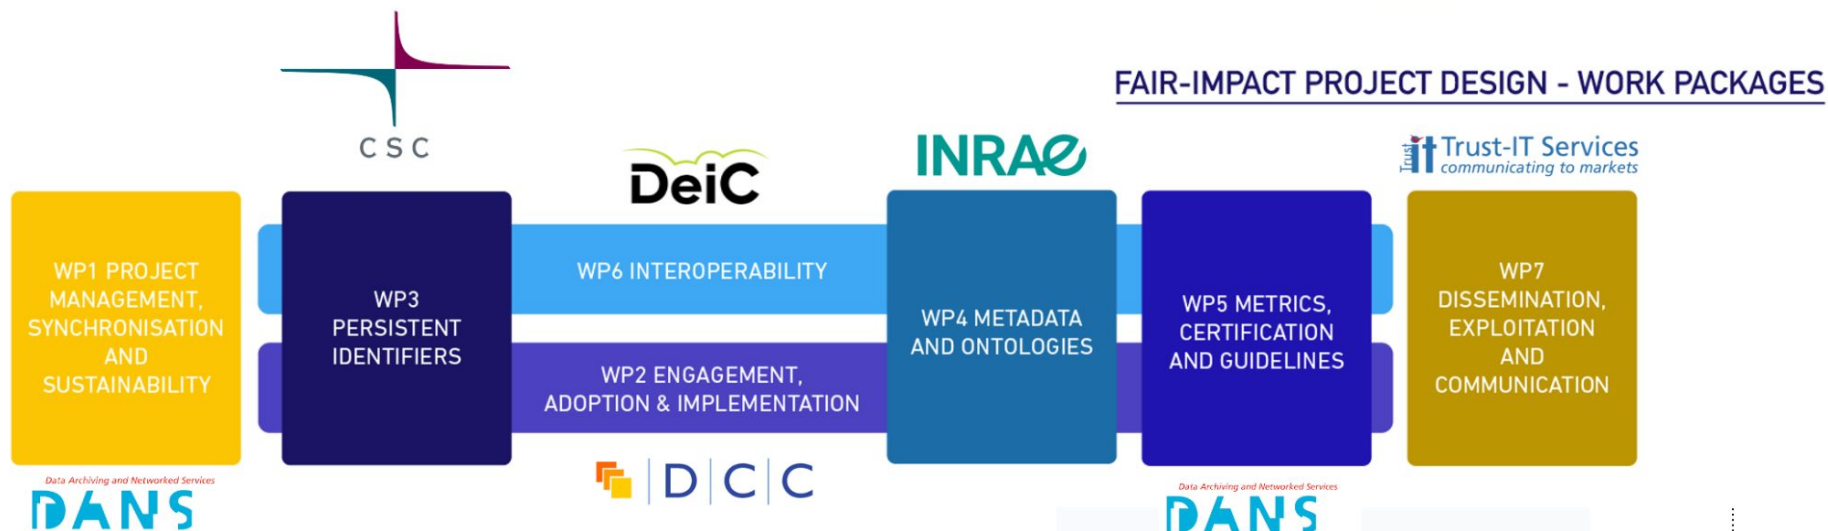

## HOW:

- **identifying** current and emerging components for enabling FAIR (practices, policies, tools & technical specifications);
- **translating** viable solutions, guidelines and frameworks that have been developed for one domain or research output and **supporting** their application in others;
- taking the next step in implementation by **defining** the support, governance, and coordination mechanisms required to ensure the continuous function of FAIR-enabling practices in the EOSC.

## The Consortium

# FAIR-IMPACT project design

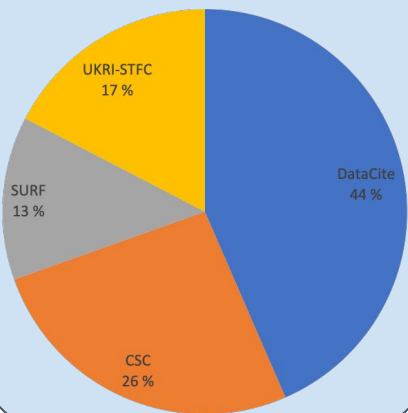

## Tasks on PIDs

### Task 3.1

Setting up a coordination mechanism for EOSC PID service providers

### Task 3.2

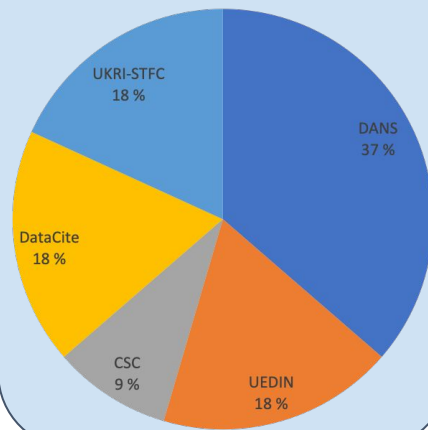

Integration of PID practices into FAIR data management

### Task 3.3

EOSC PID Policy alignment & support

### Task 3.4

PID implementation programme

# Coordination with PID Service Providers

## Shared long-term vision for PID service providers in EOSC (M34)

2) EOSC PID providers coordination mechanism proposed (M16)

3) Align requirements for onboarding PID providers into EOSC, including emerging PIDs (M18)

1) Joint value proposition by relevant PID providers (M10)

CONNECTING RESEARCH,  
IDENTIFYING KNOWLEDGE

[Direction icons created by Prosymbols Premium - Flaticon](#)

# PID practices in FAIR data management

- Identifying and documenting best PID practices for; managing workflows, datasets and research objects
- Meeting user needs and a more coherent implementation of PIDs, leading to more exact data citation and a broader and more targeted use of PIDs
- Sharing the results across research communities to achieve alignment in PID practices
- Interacting with other communities through workshops

Source: Mindmeister.com

Focus on data products, automatic workflows, documenting data provenance in processes and PIDs for instruments, software etc. (UKRI-STFC, CNR, INRIA, UNIMAN)

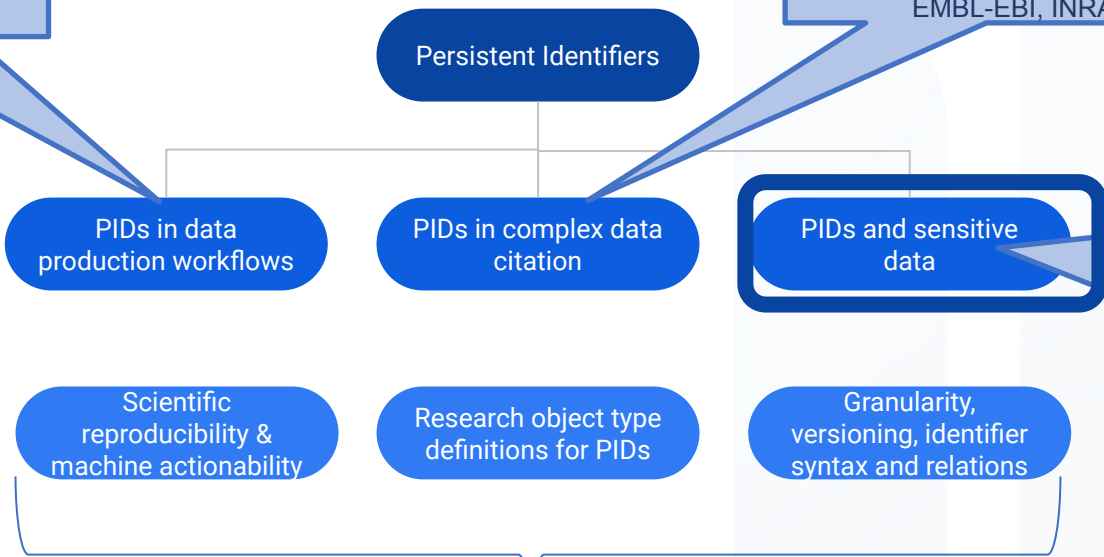

# Use case topics & structure

Focus on PIDs for data citation with different types of entities, including versioning, collections and hierarchies (LifeWatch, EMBL-EBI, INRAE)

Work Pack

Subtasks

Cross-cutting themes

Focus on specific needs regarding kernel metadata and related owner rights (UESSEX-UKDS, EMBL-EBI)

Topics to be addressed by all subtasks

## Tools, services & platforms

## Projects, initiatives & communities

## EOSC PID Policy alignment & support

- Looking into various PID policies, map them and ensure adaptation for different stakeholders
- Delivering guidelines for creating a user tailored EOSC compliant PID policy
- Organising a total of three PID Policy alignment workshops. Next one will be an online workshop focusing on the criteria that PID managers can use to test the quality of their PID infrastructure (date TBD)

*Data Archiving and Networked Services*

**DANS**

 | FAIRCORE4EOSC

## PID Implementation program

- Offering practical implementation support to services that are in the process of onboarding the EOSC Core PID services
- Organising a workshop on November 21st titled “EOSC Compliant PID Implementations - Practical Guidelines for Implementing Best Practices” under the November RDA theme
- Delivering a technical EOSC PID implementation guide

**SURF**

# Thanks for your attention!
